INDOOR • OUTDOOR • DECORATIVE

2026 Edition

# Light that makes a home glow.

Future Green builds LED lighting for every corner of a modern home and the spaces around it — from wafer-thin ceiling panels and adjustable COB spots to outdoor floods, street lights and decorative rope. Whatever the room, the promise is the same.

## THE FUTURE GREEN PROMISE — IN EVERY FIXTURE

### High lumen efficiency

More usable brightness from every watt you pay for.

### Up to 80% energy saving

Big drop in running cost versus traditional bulbs.

### 2-year warranty

Backed across the entire product range.

### Easy installation

Designed to fit fast, with minimal fuss.

## THE RANGE AT A GLANCE

RECESSED SLIM PANEL

## IRIS Slim Panel

Frameless flush light that disappears into the ceiling

An ultra-slim recessed panel that sits perfectly flush for a clean, modern ceiling. Spreads soft, even, glare-free light across living rooms, kitchens and offices.

- Wafer-thin profile fits shallow false ceilings
- 3-in-1 colour switch (warm / natural / cool) on select models
- Uniform glow with no visible hot spots

RECESSED SLIM PANEL

## ILEX PC Slim Panel

The Iris panel, toughened with a polycarbonate body

Same flush, even glow as the Iris — built into a sturdy polycarbonate housing and diffuser that resists yellowing and stays bright for years.

- Durable PC body and diffuser, ideal for humid rooms
- Smooth, uniform light with a wide spread
- 3-in-1 colour option on select models

SURFACE PANEL

## IRIS Surface Panel

All the panel light — none of the ceiling cutting

Mounts straight onto a solid ceiling, so it is perfect for concrete, rented homes and retrofits where recessing simply is not an option.

- No cutout needed — fixes to any flat ceiling
- 3-in-1 colour switch on select models
- Slim surface body with even, comfortable output

SURFACE PANEL

## ILEX Surface Panel

Rugged PC surface light for everyday spaces

A domed polycarbonate surface light that throws a soft, wide glow — a dependable choice for corridors, balconies, stairwells and utility areas.

- Tough polycarbonate build
- Soft, wide-angle diffusion
- Quick surface installation, no recess

WATTAGE 6W 12W 18W

DESIGNER · DUAL-COLOUR

## Couple Slim Panel

Two lights in one — white core, colour halo

A recessed panel with an independent coloured outer ring. Run the white centre alone for everyday light, or add the colour halo for mood and celebration.

- White centre + coloured rim, switched independently
- Six halo finishes for instant ambience
- Perfect for festivals, bedrooms and lounges

DESIGNER · DUAL-COLOUR

## Deep Junction Duo CLR

Dual-colour deep downlight for standard junction boxes

A deep-set anti-glare downlight with a white core and coloured ring, sized to drop straight into a standard junction box opening.

- Fits standard junction-box cut-outs
- White + colour ring for daily and accent use
- Deep design softens glare for relaxed rooms

DOWNLIGHT

## Frameless Downlight

Surface-mount glow with no visible frame

A clean, borderless surface light for ceilings without a cavity — minimal trim, maximum spread, and a seamless modern finish.

- No false ceiling needed
- Borderless edge for a flush, modern look
- Wide, even spread from a low-profile body

DOWNLIGHT

## Tulip Deep Light

Deep-set downlight that hides the glare

The LED sits deep inside the housing, so you see the light, not the source — soft, comfortable pools of light for bedrooms and dining areas.

- Deep recess design cuts direct glare
- Flicker-free, eye-friendly output
- Compact cut-out with easy spring-clip fit

- WATTAGE 3W 7W 12W
- FINISH ● ● ● WW / WH / NW

COB SPOTLIGHT

## Lotus Concealed

Adjustable COB spot that aims light exactly where you want

A tiltable concealed COB spotlight for highlighting art, niches and architectural features — a crisp, focused beam behind a clean recessed trim.

- Rotatable / tiltable head to aim the beam
- Sharp COB beam for accent and highlight
- Concealed trim sits flush in the ceiling

- WATTAGE 3W 5W 6W

COB SPOTLIGHT

## Lily COB Downlight

Tiny COB downlight with a big, crisp punch

A compact fixed COB downlight for tight spaces — wardrobes, display shelves and accent rows where a small, bright point of light does the job.

- Small footprint, strong focused output
- Ideal for shelves, display and task accents
- Cool-running, low-wattage COB

OUTDOOR · WALL

## 2-Way Wall (Wedge)

Sculpted wedge wall light with a warm up/down glow

A faceted wedge-form wall light that casts a warm beam up and down — a designer accent for entrances, balconies and feature walls.

- Twin up / down beam in a faceted body
- Warm-white glow for inviting entrances
- Weather-ready outdoor housing

WATTAGE Wall light

FINISH WW

2-YEAR WARRANTY

FLEXIBLE

## Rope Light

Flexible glow that bends around anything

Weather-friendly LED rope light for outlines, railings, festivals and facades — cut to length and run it along any curve.

- Bends around edges, railings and signage
- Eight finishes, from warm white to RGB tones
- Long runs with a low power draw

WATTAGE Per metre

FLEXIBLE

## LED Strip

### Hidden cove and accent lighting on a reel

Self-adhesive LED strip for coves, under-cabinets, mirrors and shelves — tuck it out of sight and let the glow do the work.

- Self-adhesive and cut-to-length
- Even line of light for coves and edges
- Pairs with the Future Green SMPS driver

WATTAGE Per reel

FINISH WW / WH / NW

2-YEAR WARRANTY

POWER

## SMPS Driver

### Stable, protected power for your LED installs

A switch-mode power supply delivering clean, regulated DC for strips, modules and signage — with built-in short-circuit and overload protection.

- Regulated, stable output for long LED life
- Short-circuit, overload & over-voltage protection
- From 2A to 33A for small to large loads

WATTAGE 2A 5A 10A 25A 33A

Tip: list the output voltage (e.g. 12V / 24V) here so installers can match it to your strips.
